

A CAREGIVER BENEFIT FOR YOUR EMPLOYEES

When a parent's Medicare falls apart, your employee turns to you.

Right now, one of your best people is on hold with Medicare instead of working.

One in five of your employees is quietly managing an aging parent's Medicare, on work time, and too proud to say so. The denial letters. The afternoons lost to hold music. The benefits their parent is owed and never claims. MediNav carries it for them, so your best people can get back to their work, and their lives.
